Description of Problem

The current specifications for glass mat and slit glass mat can be made more accurate and complete with the following changes:

Glass Mats: Delete C-glass from item description.
Change glass softening point to 756 +/- 10 degrees from 750.
Change rolls per pallet to 2 from 1.

Slit Glass Mats: Delete C-glass from item description.
Change bobbins per stack to 47 from 45.
Add outside diameter specs of 30.0, 26.0 - 31.0 inches.

Proposed Solution

Change the current MSS specifications as outlined above.
